Elite Pianist is one of the best selling piano plug-ins available today. With new variants coming out all the time, new presets, new features and numerous improvements, Elite Pianist is still the best platform for modern and vintage piano sounds. Elite Pianist follows the latest sound design philosophy, and the new 6.0 update brings 4 new sounds: Piano, Electric Piano, Electric Organ and Electric Grand. We have added all these new sounds to the pianist tab, so that piano fans can easily switch to piano sounds, and Elite Pianist is an easy, enjoyable and professional way of making your own piano samples or adding a unique style to your music. Elite Pianist has a large number of built-in effects such as compressor, delay, reverb, chorus and EQ. Stylistically, the built-in effects can be modulated by using the modulation wheel and the transpose function on the keyboard. Each piano string has a separate effect and it's easy to add an additional string. The easy interface allows you to customize the pianist's appearance, assign effects to all or selected note, add effects to a selected string, assign a volume envelope or LFO, assign an audio channel, change the instrument's panning position or modify the piano's MIDI velocity. This piano plugin is the best way to create your own piano patches or add something unique to your tracks. You'll be sure to love the way it sounds once you find your perfect combination of notes, effects and mood. Feel free to contact us at info@analog-lab.co.uk for more information about Elite Pianist. For all other inquiries or if you have any questions, please use the contact form on our website. We look forward to hearing from you! Elite Pianist comes as both a Windows and Mac compatible VST, VST3 and AU plug-in, for both 32 bit and 64 bit. Features: - 8 piano samples including: Bass, Amp Piano, Electric Piano, Electric Organ, Electric Grand, Piano 1, Piano 2 and Electric Piano 1. - 6 built-in sounds: Standard, Stereo Chorus, Stereo Flanger, Stereo EQ, Multiple Note FX and LFO FM - Adjusts with five parameters for each string: Vibrato rate, Amplitude, Pitch, Tone and Leg 3ef4e8ef8d
