Go to the Main Menu in the lower right corner of the games main page. When it loads, click on "Steam" from the Menu to go to the "My Games" tab. Now click on "GTA IV" and copy your'serial' onto this page. This serial is not the serial that you receive from the cd-key (it is different) but rather the number that is engraved into the cd-key. Now go back to the Main Menu on the Steam client and click "Games" > "View CD-Key" and paste your serial into the box. Enter your unlock code. Enter your email address for the "Unlock" and the "Unlock Method" Å® The 'unlock code' should be provided to you by the cd-key supplier. The reason you need to use the 'unlock code' on a 'clean' computer is because you need the game to be able to generate its own "database" of the game so it can unlock the features.
