Sony Acid Pro Pursuit Software suite includes 20 music production tools to speed up your workflow Solderless terminal strip with electromagnetic shield Pursuit Audio Pro Kontrol 4 Instrument and MIDI Effects Booster Pursuit Audio Pro Kontrol 4 Keyboard at a glance: Optical pressure-sensitive piano keyboard, 44.1/48 kHz sample rate, 16- and 24-bit/192kHz Pursuit Audio Pro Kontrol 4 includes Mastering Amp - a 24-bit/192kHz professional-grade audio processor developed in collaboration with the engineers at Universal Audio. Uses dual triode tubes and custom designed copper ladder networks to provide extreme 5 days ago | Music | Guitar | Sony Acid | BAX / Audacity / Audio Edit Pro L., | Stereo Hi @bachir. I got your email. Yes you can use any effects for music projects. You can use the effect in any song. But when you use a plugin, it always affects the original audio. So if you want to use the effects in only one song, you can use the proper effect only in that song. stevan 11-01-2012, 10:14 PM Hi @bachir. I got your email. Yes you can use any effects for music projects. You can use the effect in any song. But when you use a plugin, it always affects the original audio. So if you want to use the effects in only one song, you can use the proper effect only in that song. Thanks for the reply! I figured the plugin file has the same effect as the original audio. It's just that in a certain song I want to apply more effects (fx) than the original one. PS: Yes I use Ambisonic surround from SD recordings stevan 11-01-2012, 11:53 PM Hi @bachir. I got your email. Yes you can use any effects for music projects. You can use the effect in any song. But when you use a plugin, it always affects the original audio. So if you want to use the effects in only one song, you can use the proper effect only in that song. Thanks for the reply! I figured the plugin file has the same effect as the original audio.
