Below are some of the features and improvements which you can get with Windows 8.1 This site is not affiliated with Microsoft Corporation, Windows, Windows 10, Windows 8, Windows 7, Microsoft, Windows Phone, Xbox or Xbox 360.Q: Memory error for data with more than 16GB in RAM I have a data frame with only one variable. For this data I use different size of vector (range) which are really big (from 5Gb to 35Gb). At each iteration I have to apply a function which takes a vector of the same size. But for each iteration, I get a MemoryError for the RAM which is bigger than 2Gb. Is there a way to avoid this error? Exemple: NbDat
