salvatore: install the rtorrent pacakge on ubuntu Ok, I'm installing it now Thank you very much how to install fso? dontknow: sudo apt
install libfso6 dontknow: that should install the fso libs for your system k11, what is the use of lib? dontknow: i dont know. try "apt-
cache show libfso6" k11, I already have fso, does lib mean external resource? dontknow: i dont know what fso is. but it is a symlink for
the "full stack" package k11, in my installation of fso, it has no postinst, it seems to be a package dependency or a config file dontknow:
i dont know, i just know there is "libfso6" on my system. but i would ask the fso irc or github channel, if they know what the package is
for Hello guys, I have a question. I just installed an external 4G drive (usb) and added it to fstab to automount. I now have the drive in
two places in fstab, and it is showing up twice in fstab and gparted. Is there a way to remove one of the entries from fstab? k11, I see,
but why was it removed from repos? k11, Launchpad bug 835753 in fso (Ubuntu) "Please provide a transitional package from fso to
fso6" [Wishlist, Triaged] dontknow
