The OverView® Passport™ complete removable denture design provides superior support and stability by eliminating the need for a second or other rigid-plate support foundation. Achieving the S-line restoration principles, the OverView Passport™ virtually eliminates the need for any other hard or soft tissue support. Highly supportive teeth ensure ideal soft tissue support around the superior areas of the mouth while still preserving healthy, under-supported tissue. This superior design promotes the correct flow of denture tissue for a more comfortable fit that reduces the need for relines and adjustments. And naturally, the unit feels significantly lighter and more comfortable to wear compared to traditional designs. The OverView Passport™ is the only complete removable denture design that can be manufactured to be worn in both the up and down articulation positions – eliminating the need to

remove and reattach your denture in order to save time and improve comfort. Needless to say, the OverView Passport™ is the most comfortable denture design available today. The flexible, resilient material is a great choice for individuals who need a lighter, more comfortable implant-supported alternative to the metal-free removable denture. Tension
