The present invention relates to a method for producing an ultra-high purity polymer which is suitable for, e.g., an optical use and, more particularly, to a method for producing a polymer having an extremely high purity, i.e., having a reduced content of impurities such as inorganic salt, metal ion, residual monomer, etc. As a polymer having a reduced content of impurities and a favorable transparency, there have heretofore been known, for example, polyethylene, polypropylene, polystyrene, etc. The problem with these polymers is that they are so poor in resistance to heat and in chemical resistance that they are difficult to produce in a high yield and in a low cost. With the object of developing a polymer which is inexpensive and has excellent characteristics, there has been proposed a polymer comprising a (meth)acrylate polymer obtained by polymerizing a (meth)acrylate monomer having a functional group and a radical polymerization initiator in the presence of a transition metal complex catalyst. This polymer has not only a low content of impurities but also good resistance to heat and chemicals and is thus widely applicable. It has, however, been found that the polymer obtained by this method has an extremely low molecular weight. For example, a polymer having a weight average molecular weight (Mw) of about 10,000 is obtained. This polymer has such a high melt viscosity and is so poorly fluid that the polymerization is difficult to accomplish, which results in a reduced yield. This problem can be overcome by adding a solvent during the polymerization. In this case, however, not only is the produced polymer left in a large quantity in the solvent, but a large quantity of the solvent is also required. The present inventors have previously proposed a polymer comprising

FAQ

Understood, Mister Retro Machine Wash Deluxe ~ Ps Plugins 4cd [pc ~ 3d Graph activation code mac crack presented in the database. Lots of hacked Mac apps. Mister Retro Machine Wash Deluxe is a unique Mac app that lets you wash, clean, smooth, polish and restore old clothes without a single stitch. Just turn on your Mac and load your clothes into the washing machine. Mister Retro Machine Wash Deluxe uses Augmented Reality technology to show you what new clothes will look like. Mister Retro Machine Wash Deluxe has a very simple interface and is very easy to use. fffad4f19a
