"The Government will announce a detailed road safety plan for young drivers within days," the Prime Minister said in a statement. He will discuss "everything from drink-driving to road conditions to the importance of car safety for young drivers" with AECOM, he added. "There are already more than one million drivers aged 16 to 20 who have failed their driving test, while the number of people killed in road accidents by 16- to 20-year-olds has fallen by almost one-third in the last five years. "The Prime Minister is committed to taking action and will bring forward a long-term road safety plan for young people within days." The RAC's Chief Executive, Paul Willis, welcomed the plans. "This Government has ignored the issue of young drivers for too long and that has not served drivers, especially those in the most vulnerable group of 16-20-year-olds, well," he said. "There is no point in holding a referendum on this issue, as we will keep on making the same mistakes. "It's time to get serious about these young drivers. It's time to stop ignoring the issue and it's time to act. "We need to get tough with drink driving and improve the road safety culture and we need to do it fast. "What this Government has promised is good but there is a lot more to be done."Commentaires Commentaire de voyvo Commentaire de Nimbrette Commentaire de Kwikie Yay, another flower I didn't know about!
