Sentrax - Sentrax is the best email client. With its intuitive interface, Sentrax allows you to browse the folders and incoming emails or read, reply, forward or delete them with a single click. Sentrax is equipped with a customizable quick reply feature, which allows you to reply to an email with a short message or a photo you attach to the email. It also allows you to set your own gestures to perform certain tasks. Sentrax uses push notifications to let you know if you have received new emails. You can manage contacts and filter emails by specific fields, like your name, email address, phone number, or date. You can also easily add new filters to your contacts and organize your emails by sorting the list alphabetically or by the date. You can also manage contacts or send custom email with multiple recipients. SimpleEmail - SimpleEmail is a simple but powerful email program with more than 150 email templates and support for all major email clients. It is an

What's New in the OPTiSend Print?

Now Available on Google Play! - Make a PDF with images - Do it right Do you have a lot of documents you need to print to send by email, fax, or print from the network printer? Or do you have to print standard letters, invoices, and receipts? Or maybe you just need to create simple PDFs and email them with graphics, text and photos added. OPTiSend Print is a powerful, easy-to-use tool designed to help you create PDFs, email, fax and print your documents. This all-in-one tool has been designed to make it easy for you to create PDFs, email, fax and print your documents. More features - More easy-to-use! Create PDFs using images OPTiSend Print is designed to make your life a lot easier. With its easy to use interface, it's easy to create PDFs from your camera and save them to your phone and use them as documents. Then you can use images from the phone's gallery to add pictures, or edit text and other elements to create your own document. Add text A text generator is built in to make it even easier to add text to your documents. When you add text, you can choose the fonts, the color of the text, and even the font style and size. You can even change the text size to make it easier to read. Add graphics and photos You can add graphics from the phone's gallery to your document. Then you can use images and edit the graphics for your document. To edit images, simply tap them to open the gallery, tap the tool button to get access to the edit features. Or you can zoom in and out to make an image bigger or smaller, or change the color, etc. Add signatures When you print your documents, you can add a signature to them. Create PDFs from Android apps and games OPTiSend Print makes it easy to create PDFs from Android apps and games. Just open the app, tap the options button, and select the PDF you want to create. Create images from

Android apps and games You can create images from Android apps and games. Just open the app, tap the options button, and select the images you want to add.
