A: In order for the Mod to be loaded, and then to have the animations and the TV interaction with the features that come with the mod, you will need to install the following: KinkyWorld (if you got a missing immersion file error, just download the file from the KinkyWorld page and replace the file from your mods folder that has the warning symbol next to it) KinkyWorld:Kinky Features (just do a quick search for Kinky World, and it will install the Kinky features) Kinky World:Kinky

Interactive (just do a quick search for Kinky World, and it will install the Kinky Interactive) Kinky World:Kinky Interactive:Virtual Kink (just do a quick search for Kinky World, and it will install the Kinky Interactive:Virtual Kink) Kinky World:The Sims 3 Christmas (just do a quick search for Kinky World, and it will install the Kinky Christmas) Please note, that the first three you mentioned are the features that come with the mod, not the mod itself. You might need to do a few clicks, but this is the

easiest way to install the mod. I'll add the file which is used for the TV interaction, and an image. Go to the location where you installed the mods Click on the file which is named KinkyWorld. Find the mod and open it. Go to the location where you installed the mods and open the mods folder Click on the mod, and click on the tick. In the resulting mod, there should be a file with the extension esi and is in the mods folder. Right click in that file, and click on "options". In the resulting mod, right click on the

file, and click on "open with".
Choose the program which will take care of the mod. Open the program and click on "load". You will be prompted to confirm that you want to load the file. That's about it. Hope that helps.
