Category:American business writers Category:American male writers Category:1950 births Category:Living people Category:Geoengineers Category:Fulbright Scholars Category:Postmodernists Category:Harvard University alumni Category:Texas Tech University alumniQ: I have problems integrating git in my workflow I am a java developer(who has worked for the previous many years with java) and i really want to start using git, and i need to integrate it in my daily workflow. however, i can't seem to follow the instructions i've found online, nor the exercises i've seen at khanacademy. Can someone point me to some good material, a website, or some book which i can follow, and to get me started? i've tried to use git-scm.com/book, but i can't seem to follow it. Thanks in advance. A: I don't know if this is helpful, since it's pretty generic, but I've been using this SO answer as a reference. I also think it's important to take a little time to get used to git. You don't necessarily have to master it, but it is a very worthwhile tool that will make you more productive. A: The best thing you can do is to just try and get a grip on it. Read up about it on the web. What git is doing for your everyday tasks What git does in general. Also, while you're at it, try to get to know the command line git. You will need to learn at least a little bit, as doing things via a GUI will not be realistic for you. Also, you'll be using git at work and some of the tools are GUI-only. The best way to learn git is just to do it, not read. Learn to use it from doing. Q: How should I prepare for this interview? I will be giving a phone screen interview with this company on Thursday 9/11 How should I prepare for this interview? A: Be yourself. Say what you want to say. Get it over with as soon as you can. People who are going to be working for this company are human beings, not robots. A quick note about companies you may want to avoid: They're like a dog that bites
