Photopia Director is an easy-to-use photo slideshow editor that enables you to create a slideshow from any folder or image, video, or audio files. With the integrated wizard you can start designing your slideshow and customizing your pictures, videos and audio files in just a few clicks. It provides a lot of features that will allow you to create eye-catching slideshows within seconds. The most powerful features are: • Automatic slideshow design (music, transition, fonts, etc.). • Fully customizable slides. • Unlimited source types (photos, videos, audios, music, and much more). • Awesome transitions (3D, gravity, light, etc.). • Photo effects (hue, saturation, etc.). • Slideshow

templates. • Preview mode. • 3D gallery display. • Vignette, Posterize, Crop, and Watermark options. • Final output (videos, e-mails, social networks, etc.) System Requirements: Windows, Mac and Linux Award Winning Photo Editor: Vivid Photo Editor 8.0.2 is a cross-platform powerful photo editor software which will help you create amazing photo collages, enhance and modify your photos using its wide collection of powerful tools. This award winning photo editor is more than just a collage creator, it is also a digital scrapbook maker with a lot of pre-installed scrapbook templates that allow you to design scrapbooks with ease. It is one of the most powerful image editor with more than 20 years of experience. Now it is easier than ever to create impressive scrapbooks, photo albums, greeting cards,

wallpapers, posters and much more. Vivid Photo Editor can help you enhance, flip, rotate, resize, change color, convert color, add watermark, frame, text, blur, sharpen, smudge, retouch, clone, flip, rotate, flip, flip, rotate, rotate, rotate, resize and many more all within the image you are editing. You can also save your created image as a transparent PNG and other image formats. This powerful software is super easy to use and most users do not require any training. All you need to do is select the images you want to put together, choose a layout, and start the collage design process. Vivid Photo Editor comes with a huge library of different layouts, fonts, shapes, and symbols that are very easy to use. You can also import and export your favorite

--n... VideoSlideshow Creator is a powerful video slideshow maker that can create a great impact on your movies. It's not necessary to be an advanced user to get the result you want. With its intuitive interface, VideoSlideshow Creator is easy to use and will make your video to present more clear and attractive. It can help you create a powerful, professional-looking movie with only a few clicks. Feature-packed GUI The GUI of VideoSlideshow Creator is quite simple, with its four tabs: Background, Transition, Viewer and Output. From there, you can customize everything you need. VideoSlideshow Creator allows you to add a background image for each slide. You can choose a solid or a gradient color. Besides,

you can modify the transparency of the background and the color, brightness, contrast and sharpness of the image. You can also add a transition effect between slides. Adding a background image and a transition effect for each slide is enough to add a lot of polish to your slideshow, but you can easily edit or replace every single item within the slideshow. Viewer This tab lets you customize the slideshow's viewers. You can choose the aspect ratio (1.33, 1.78, 2.39), the thumbnail image, the size, the color, the size of the viewer, and whether to show the next, previous and play buttons. You can also choose to show or not the repeat button on the viewer, and choose the number of slides per viewer. You can also add a space between every two slides. Output You can choose the file format, the

video quality, the slide transition effect, and the slideshow background color. Movie Export You can export the slideshow into a popular video format such as MP4, MOV, WMV, AVI, FLV, MKV, WebM, H.264/MPEG-4 AVC and 3GP. You can choose to include or exclude the audio track. VideoSlideshow Creator Interface The screenshot below shows the interface of VideoSlideshow Creator: VideoSlideshow Creator Interface VideoSlideshow Creator Features: --Highlights Add a transition effect between each slide Add a background image for each slide Add a change of focus on the viewer Select the aspect ratio of the slideshow --Intermediate Use overlay effects and an unlimited number of slide transition effects Edit the background color, image brightness, contrast and sharpness

Modify the background image's transparency and change its color Edit the Viewer's thumbnail image and size --Advanced Use the slide transition effects, unlimited slide transition effects, background color, image transparency and solid or gradient background image Edit the number of slides per viewer Add a space between each two slides Create a slideshow as a PowerPoint Presentation with background images, solid colors and a gradient color Modify the aspect ratio of the
