Aug 7, 2016 Fixed: Volatile/Script bugs; Added: Lowered the intensity of the lava splash for the new flowers. Added: Fixed Show/Hide option on the bottom left corner so that if your save file is corrupted due to No Sound the game will open up with the show/hide option already set to "Always". Jul 7, 2016 Fixed istage bug. I got rid of the rad\_palace (Not that island I need to build in the base game) so istage bug. Aug 19, 2016 Yay i fixed it Dec 17, 2018 Big news, this is a community made patch, and it does the following: Fixes some issues in the game. If you have all those and your game is crashing even after the patch is applied, its most likely a game bug. Don't forget to report bugs using the clickable bug button below. Download progress It is important that you understand that the content of a patch can be quite large so it can take some time to download, below is an animation that will guide you through the download and installation. See Also: Anno 1404: Gold Edition This is a steam-activated pack, you won't get any updates unless you have steam activated. Instructions: Download the patch. Once it's downloaded, run the patch. Important: Each time you run the patch from now on, you will need to wait for it to install. Once the patch has been installed, it is very important to patch your game into version 1.03.3500 as soon as possible, otherwise you won't be able to patch anymore as the patch ID's will not match. Once the game is up to date, launch it. You can continue playing while the patch is being installed. Once the patch is completed, stop the game. If you have steam already activated, you can re-install the game without patches using steam. But you'll lose all progress. If you don't have steam activated, you will need to download steam from After the download is complete, run it and follow the instructions to activate steam. Once steam is activated, follow the steps to re-install the game. Uninstalled = Steam needs to be run again, then it will 1cb139a0ed
