Vapemate Mixer is a utility designed to create great vaping flavors by adding different aromas, such as fruits, caramel, milkshakes, coffee, among other tastes. The app is completely free for personal use and it is a good way to experiment with different flavors and aromas. You can enjoy your favorite liquid, follow the recipe, calculate its amount, modify the levels and make your personal flavor creation. The app also includes a notepad that allows you to record your own recipes and avoid mistakes. Vapemate Mixer is very intuitive and easy to use, but you may need to adjust your settings in order to make it work optimally. The app includes several different options, which are often hard to understand and use. In particular, you will find two options that you must configure in order to enjoy the full benefits of the app: • Edit your recipes • Adjusting the vaporizer device **This app is Free to use and Download. What's New in the Smart Vape LIQMix?

Smart Vape LIQMix is a small utility that allows you to learn more about the e-cig device battery usage and experiment with various flavors. The application is available for free and you can test it for 30 days. During the trial period, you can view a default window displaying the energy consumption and battery discharge time of the common e-cig devices. There are plenty of reasons why you should change to vaping. With e-cigs, you can quit smoking and regain control over your health. Nowadays, vaping is often compared to smoking, but it is not completely the same. The e-cig gives you an alternative to the real thing and you do not need to go through the health risks of cigarettes. You do not have to worry about throat cancer, lung cancer or any other type of cancer and you will not experience heartburn, nausea or any other health problems. The e-cig device is not like a real cigarette in any way. If you had any doubts, you can simply make your own mix and taste its e-juice. Do not you want to try it? In addition to nicotine, you can also add flavors such as grape, strawberry, banana and so on. You can use your smartphone or tablet as a battery power source for your e-cig.   Smart Vape LIQMix is a small utility that allows you to learn more about the e-cig device battery usage and experiment with various flavors. Aids you create your very own e-liquid recipe Even though the interface is not the app's strong point, Smart Vape LIQMix can be a dream come true for DIY fans and amateur chemists. More precisely, you can use up to 4 bases of nicotine and 8 different flavors to make your own recipe. You can type in the desired quantities in the dedicated fields and the application automatically calculates the juice's amount, strength and the PG/PV ratio. It is worth mentioning that you can save the mixer window as a PNG file and consult with friends or ask for an opinion on the dedicated forums. Moreover, you can save recipes as TXT files or print them directly. A good tool for vapers looking for something fresh and exciting In case you are tired of the same flavors you find at the local stores and want to concoct your own mix, then Smart Vape LIQMix can be a tool to help you calculate the right quantities. The utility can also be useful if you simply modify the bases and mixes in e-liquid you like. In an ideal world, this game would be dead or on the way to it. The way you see it, it's a question of a few months. If there are not enough players, a
