## Lazybot 3.3.5

So I'm looking on google to find a profile for a lazy bot that works on 3.x.x - 3.3.5, but all the links are dead, so here I am, can someone help me... I'm new to Python and would like to understand why lazybot doesn't work, since it's mostly used to upload images to a website using python. For example, let's say I have the code below that works fine, but I'd like to understand why lazy loading doesn't work.

```
import time, os, sys
import requests
try:
    from PIL import ImageTk
    import numpy
    print("Download starts")
    from requests.http import
    urllib, urlopen
    url = "http://www.whatever.com/images/image.png"
```
