Vista Live Shell Pack - Pink

This small application packs a big punch. When you press the key combination sequence "ALT+CTRL+K", it will bring up the WIN32's password prompt. Then click the "*" button, type in the user's Microsoft Windows XP or Vista password and click OK to log in. Now, you have two options: Option 1:You can quickly do things like: -copy files to your drive (CTRL+C) -paste files to your drive (CTRL+V) -move files to your drive (CTRL+L) -delete files (CTRL+D) -print files (CTRL+P) -change the desktop wallpaper -change to the different language options -backup your system -restore your system -exit WIN32 Option 2:You can get more power from the keymacro, and have more things that you can do on your Windows XP or Vista. For example, you can do things like: -Restore Windows XP and Vista from a Live DVD/USB drive (if the Windows XP or Vista operating system is corrupted) -Start a new installation of your Windows XP or Vista operating system from a Live DVD/USB drive -Get your Windows XP or Vista to a recovery mode and use it (for example, if you accidentally delete your Windows XP or Vista operating system files) -Uninstall your Windows XP or Vista operating system -Reformat your Windows XP or Vista operating system -Repair your Windows XP or Vista operating system -Change the volume level on your Windows XP or Vista operating system -Install a new

keyboard -Install a new mouse -Change the volume level on your Windows XP or Vista operating system -Change the video configuration to your choice -Change the name on your Windows XP or Vista operating system -Change the date and time on your Windows XP or Vista operating system -Change the sound configuration to your choice -Change the background image on your Windows XP or Vista operating system -Change the lock screen settings -Change the language settings on your Windows XP or Vista operating system -Change the keyboard settings on your Windows XP or Vista operating system -Change the mouse settings on your Windows XP or Vista operating system -Change the window settings on your Windows XP or Vista operating system -Change the desktop wallpaper on your Windows XP or Vista operating system -Get your Windows XP or Vista to Safe Mode - 1d6a3396d6

System Requirements:

To run this mod you need the latest version of this game, make sure you have it and have it installed on your computer. Edit: Downloaded it from the official site but I was unable to install it - not even a steam error. I had to reboot and then install again. I tried it on patch 2.0.3.1 Enjoy Credits: CREDITS Provenza for the various modding tools he uses in games. theFy3 for the awesome terrain
