I can download them locally, but as soon as I try to open them I get an error message that says "Object required." I have researched a lot online and I have tried a few things but I don't know how to change my code to work with this. I also don't know if there's a way to export multiple files to pdf. Any help would be appreciated!! Thanks!

A: Unfortunately, although you can easily download the reports in the administration portal, it does not give you the file. You have to save them and then open them. So with your code, you would do something like this:

```
$url = ""; $file = fopen($url, 'rb'); $content = ""; while (!feof($file)) { $content.= fread($file, 1000000); } fclose($file); $content = strstr($content, "\r "); header('Content-type: application/vnd.openxmlformats-officedocument.spreadsheetml.sheet'); header('Content-Disposition: attachment;filename="'.basename($url)."'"); header('Cache-Control: max-age=0'); echo $content;
```

in the car, ready to make you do or do me "I'll Give You the Stars" has been one of my favorites since I first heard it. It will certainly be in my top 5 for the next millennium! Are you coming to L.A. this weekend for the show? Is this your third visit here? I would love to meet you, your handsome husband or your great looking son! (as long as you're smart enough to mention who you are, of course) I just bought The Clash from Amazon. What a lovely gift, Sophie! Thank you for the link, Alana. I would love to be standing there with my Barbies on Saturday to watch the show. I really need to see that. I do need a boyfriend and love life though. I
