The Washington Post first reported the details of the longstanding allegations against Kavanaugh on Sunday, alleging that he was present at an orgy — at a house in Montgomery County, Maryland. AD The Post said it corroborated the information with two people who attended the party and that it was organized by a “well-known, left-wing organizer.” AD The allegations were first reported by the New York Times on Saturday. Mark Judge, a regular during the 1982 to 1983 calendar year to attend high-school parties, told The Post that Kavanaugh was present and “aggressive in his alcohol consumption.” Judge “had seen Brett over the years at parties in Montgomery County, most notably when she was dating and later while they attended Yale, where he was known as ‘Bart O’Kavanaugh’ as a member of the Delta Kappa Epsilon fraternity,” the Post reported. Judge, however, said he could not name specific parties in which he had seen Kavanaugh. AD “I’m not prepared to answer that right now,” he told The Post. A Yale classmate, P.J. Smyth, also said that Kavanaugh was present at a 1982 to 1983 party that was held at the Montgomery County house. Smyth told The Post that he was “100 percent” confident that the house was the one for which he attended a party with Kavanaugh. AD When asked about the alleged party, Smyth said he could not remember who else was present, but that Kavanaugh “spiked the punch” at the party. “I remember a bunch of boys being passed out at the end of the night and everyone blaming each other for that,” Smyth told The Post. Two other classmates from the 1982 to 1983 school year provided statements to the paper, and two additional women came forward with allegations, in addition to those that had been made public previously. AD A group of Washington Democrats filed a lawsuit Monday against Republicans over the handling of the FBI investigation into Kavanaugh’s allegations. According to the lawsuit, the panel had “questions that Republicans were unwilling to ask.” “Judge Kavanaugh and his allies did not ask any questions to determine whether a preponderance of evidence, supporting a genuine concern for the truth, existed in the multiple investigations of
