Font Magic Crack Product Key For PC

Font Magic is a handy and simple application that allows you to create 3D text. The interface of the program is plain and easy to work with. Font Magic allows you to select a text color and to adjust the hue levels, as well as select a text fabric (e.g. bronze, copper, chrome) and configure properties (shine, ambient, diffuse, specular). Additionally, you can select a background type (solid color; vertical, horizontal or rectangular gradient) and colors. The interface contains a toolbar and status bar, as well as environment properties (e.g. size, position, status). Font Magic for Windows is a program that allows you to create 3D text. It supports several Font Magic formats, as well as can be used even by those who have never used the software before. Installation is very easy, and you can download Font Magic Portable from our website to your flash drive, and start using the application without installing it on your PC. Once you run the executable file, the program will automatically appear and launch. The interface of the program is plain and easy to use; you can adjust the text size, position, colors and add decorations. Moreover, you can adjust the text background, and set the coordinates of the text. Font Magic allows you to select a text color and to adjust the hue levels, as well as select a text fabric (e.g. bronze, copper, chrome) and configure properties (shine, ambient, diffuse, specular). In addition, you can disable the toolbar and status bar, along with text and environment properties, render a single frame or movie, change the canvas size and copy text, as well as save the project as a Font Magic file (MAG). The tool uses a moderate amount of CPU and system memory, has a good response time and includes user documentation. We have not come across any difficulties throughout our testing; Font Magic did not freeze, crash or pop up error dialogs. However, the app comes with limited and outdated features. For example, you cannot set an image as background. Plus, you cannot configure program settings, such as making Font Magic minimize to the system tray. The tool has not received updates for a long time. Key Features: ✓ Automatic preview of the results. ✓ Adjust text size, position, colors and add decorations. ✓ Adjust the text background, and set the coordinates of the text. ✓ Select a text color and to adjust the hue levels, as well
