A detailed description of each command is available in the help menu. About Screensavers: All the free screensavers listed on www.screensavers-land.com come with the possibility of setting the screensaver on your PC, to make it sleep, dim, or display the desktop image. It is possible to choose to make the screensaver sleep, dim or display the desktop image after a defined period, or after a defined number of seconds. It is also possible to specify how you want the screen turned off at the end of the defined period. You can decide to dim the screen for a period of time, or to display the desktop, or, finally, to make the screen sleep. License: Stormy Day Screensaver is provided free of charge. If you are running a commercial computer, please pay to the author for the rights to use the screensaver, and leave a thank-you on the screensaver website. Please visit www.screensavers-land.com/screensavers/stormy-day-screensaver.html for further information. In this screensaver there are 4 large beautiful clouds, that move slowly down, the left side and right side of the screen. History: You like to have a relaxing screensaver? and so do I. The rain is a good friend of us, it helps a lot to calm our minds, and it is also good for making and cleaning the air. In this small screensaver there is one big beautiful cloud that moves slowly down, from left to right, and from top to bottom,

What's New In Stormy Day Screensaver?

This simple screensaver contains only 4 animated elements: Sun, Moon, Clouds and Waves. Stormy Day Screensaver has three main modes of activation: rain falling on tree, rain falling on clouds, rain falling on the sea. They are activated sequentially or randomly. It is possible to change the speed of the rain fall, both at the time of activation and during its duration. The waves crash on the shores and the rain falls on the trees. It is possible to choose the number of waves. Stormy Day Screensaver has no configuration and no global variables to be modified. It works also as an system monitor, thanks to the small size of the screensaver. It is cross-platform and works under all popular OS: Windows, Macintosh, Linux, FreeBSD. Screenshots: Images: Version History: Screenshots: Feel free to visit the Stormy Day Screensaver web site. Stormy Day Screensaver is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.
