It takes a little time to figure out how to use these tools, but in most cases, your efforts pay off in the end. ## The Layers Panel Figure 6-2 shows the Layers panel that is the foundation of any Photoshop image. As you become more familiar with Photoshop and its tools, you'll find that the Photoshop Layers panel is a key to understanding how images are edited. **Figure 6-2:** Layers enable you to build complicated picture compositions by making copies of other layers. | --- | --- The Layers panel consists of several sections of information: the current active layer, the Layers palette, and the History palette. The active layer is where you do your editing work. The Layers palette holds a list of the layers currently visible in your current image, and the History palette stores a history of your work and is where you save work you've done. In the Layers palette, you see a list of the active layer's master layers. To add a new layer, click the plus sign (+) in the bottom-right corner of the palette. To create new layers, either create a new layer by clicking the New Layer button in the top-right corner of the Layers palette or drag an area of the canvas to the New Layer icon (the little + sign) in the Layers palette. Master layers are the layers that have been copied and pasted from other layers in other files and made visible in the current image. NEW YORK (Reuters) - A court hearing in New York has been delayed until Jan. 25, 2020, after the judge cited "grave concerns about the state of our healthcare system, the pandemic and public health," according to a court filing late on Tuesday. A judge is pictured in her office in White Plains, New York, U.S. November 8, 2019. REUTERS/Brendan McDermid The hearing in the closely watched defamation lawsuit between President Donald Trump and former U.S. House of Representatives Representative Elijah Cummings had been scheduled for Tuesday but Judge Nicholas Guregian in New York state supreme court delayed the hearing until Jan. 25 at a Manhattan courthouse. It was unclear why the hearing was delayed. Tiffany Trump, the president's daughter, filed the lawsuit in 2018, claiming that her father falsely called Cummings, who represented Maryland in the U.S. House of Representatives before he became House Oversight Committee Chairman for eight years. Cummings in 2019 said Trump, during a July 2017 visit to his Baltimore district, suggested that the congressman's late father was "the most racist." Cummings said Trump also said Baltimore was "the worst-run and worst-crime-infested mess I have ever seen." Trump denied making the comments and the lawsuits is ongoing. A spokesman for Cummings did not immediately respond to a request for comment. The lawsuit stems from a book written by Trump lawyer Michael Cohen, titled "Trump as I Know Him," in which Cohen said Trump used the phrase "daddy" to describe Cummings' father. The book says the president then told him that Cummings "should be lynched." Cummings said in his lawsuit that Trump used the "vulgar phrase about lynching to describe the Congressman's father." Cohen's book was published in July 2018, seven months after the lawsuit was filed. The case is Trump v. Cummings, U.S. Supreme Court, No. 19-496, in the New York State Supreme Court, New York County. The judge has previously suggested that he could be open to dismissing the case entirely.Welcome to the AirSafe.com News Desk Wednesday, July 23, 2011 Aircrew Procedures: Emergency Landing In Alaska, 4/19
