Soft4Boost Secure Eraser Crack+ Free Download For PC (Latest)

Digital Sun Freeware Go Home 3 of 5 Digital Sun Freeware Go Home is a handy way of automatically back-upping a set of important and frequently used files from your PC. Simply load the desired files into the 'Add' window, which will present you with the actions that need to be performed to ensure the safety of your files. The program will offer a number of methods to store the backup copy. In addition to simply storing the files on your external storage media, you can even make use of a personalized back-up folder, providing you with yet another way of protecting your files. After choosing the preferred options, you can simply press the 'Go Home' button to begin the process of backing up your important files. In order to avoid the possibility of files being deleted without your knowledge, Digital Sun Freeware Go Home will back up a file only after the previous backup operation is completed. Once the backup process is over, a small window will open informing you of the success of the operation. To conclude, Digital Sun Freeware Go Home is a handy utility that will help you back-up your important files, thus making it a valuable investment. Digital Sun Freeware Go Home Description: Hide My IP - Webcam Video Surveillance Software 4 of 5 Hide My IP - Webcam Video Surveillance Software Hide My IP - Webcam Video Surveillance Software is a powerful video surveillance software, which will give you the ability to monitor and record your webcam from any location, at any time. The video surveillance software features a number of features designed to make your life easier, including the ability to setup a webcam recording schedule and share the video stream with the users from your local network, via the Internet or even SMS messages. Hide My IP - Webcam Video Surveillance Software's database of recorded video files is extremely large, with each record in the database sorted by name, date and IP address, making it an excellent tool for both basic and professional use. With the program you can choose to log and archive images, which will allow you to view the recorded files at any time, even if you have not installed the software on your computer. Hide My IP - Webcam Video Surveillance Software supports a number of useful features, including customizable alerts, the ability to create groups of users, customizable recording schedules, the ability to view your webcam remotely, the ability to transfer images to remote locations and use FTP to transfer your video surveillance files to other computers and even set up

What's New In Soft4Boost Secure Eraser?

Software developed as a means of deleting sensitive files and documents from your computer, in such a way that they can never be recovered even by specialized applications. Soft4Boost Secure Eraser is an efficient and easy to use software solution developed as a means of deleting sensitive files and documents from your computer, in such a way that they can never be recovered even by specialized applications. The program is quite simple to work with, presenting itself in a rather basic and unimpressive interface. All you need to do is load the file into its main window, either by using the assigned buttons or the options from the 'Add' menu, as it does not support drag and drop actions. Moreover, Soft4Boost Secure Eraser supports batch operations, meaning you can work with multiple files at the same time or even an entire data folder. After loading the targeted documents, you can select the preferred deletion method from the drop-down list. Soft4Boost Secure Eraser offers numerous ways of permanently removing data from your PC, each with various degrees of strength, ranging from 1 pass to 7 passes. The available deletion options are 'Simple Overwrite', 'HMG IS5 Basic', 'GOST P50739-95', 'DoD 5220.22-M (E)', 'Bruce Schneier Method', 'DoD 5220.22-M (ECE)' and 'RCMP TSSIT OPS-II', each with increasing levels of power. After deciding on the overwriting method that best meets your requirements, you can press the 'Start Erasing' button and Soft4Boost Secure Eraser will begin to process your data, displaying a progress bar to let you know how much time there is left. Depending on the amount of files, this process can take more or less time. When done, the application will display a window informing you of the success of the operation. To conclude, Soft4Boost Secure Eraser is a useful and reliable utility aimed at helping you remove delicate documents from your PC, with just a few mouse clicks, preventing anyone from gaining access to them and using the information against you. System requirements: Software developed as a means of deleting sensitive files and documents from your computer, in such a way that they can never be recovered even by specialized applications. Soft4Boost Secure Eraser is an efficient and easy to use software solution developed as a means of deleting sensitive files and documents from your computer, in such a way that they can never be recovered even by specialized applications. The program is quite
