The last time I played it was FIFA 19. It was pretty fun. This time I keep falling in last year's mode, which I really liked. I wasn't just talking about the "Last-ditch tackle" feature. I wish I didn't have to use it. The 1 on 1 game was fun, but I wish I could choose different things. I wasn't really expecting to like it, but now I'm addicted to it. It's too bad that you can't go to the training section without having the game pause. Or how every time I'm in the saves, I have to pause the game. I hope the next update fixes the save feature. I'm really enjoying this game, if you guys were to pass the game on to EA to fix the save issue in the training mode, that would be great. (: It's pretty fun, although it would be better if it was more like the real game. Not having the ball actually be on the field, and also being able to score with the ball, it's pretty disappointing. Other than that, I really enjoy the gameplay. The story mode, Ultimate Team, and the online are all pretty fun and entertaining. Im almost on level 50 now and im so getting frustrated. It's to the point where I was in the last team on a 20 victory league that I was missing and I was just about to be thrown out. I hate when EA does this, it makes the game hard to play. It seems like the hardest difficulty (Inferno) is a really easy difficulty (Easy) compared to the easier difficulty (Challenge). I'm only on
