The incident happened on Wednesday morning on the Old Stone Road next to the Kendallville Airport in Kendall County. Police say mom, Toni Moore was driving her vehicle with her 3-year-old son in the back when her car swerved off the road and hit a pole. There was an opening in the car where a toddler got hold of the steering wheel and his mom was able to get him out. They're not sure how the toddler was able to get his little hands around the steering wheel. It's unclear what happened to the child once he was outside of the vehicle. The investigation is ongoing. The autopsy is scheduled for Friday, to determine how the toddler died.6 Unique methods of Babybirth Have you had the privilege of watching a natural birth? How does it feel to watch your newborn being born naturally? In this article, you'll get to hear some amazing reasons as to why certain cultures insist on having their babies be born naturally. You'll also learn about some of the unique methods of childbirth within the modern medical world. Before we go any further, it's important to know that not all births are natural and not all births are necessary. The most common method of childbirth is through C-section, but the safest method for a full term, singleton birth is an unmedicated, natural vaginal birth. The Benefits of a Natural Childbirth There is no denying the benefits of a

natural birth. As long as a mother and father are willing to try their best to ensure a successful pregnancy, a natural birth is the safest and healthiest option for a mother and newborn. The main benefits of a natural birth are: Lower risk for infection and postpartum infection One major difference between a natural birth and a C-section birth is that a C
