Removing file 002 from the site's servers would prevent the RAR files from downloading from here. A: The question looks like the OP has found a keygen to unlock an updated plugin for FoldermarkerPro. These sorts of questions have been covered on MathOverflow, here, for example. Endothelial function is impaired in obese individuals. Vascular endothelium is a key player in the regulation of arterial wall structure and functions. This study aimed to analyse if endothelial function is altered in obese individuals. We investigated endothelial function by measuring transcutaneous oxygen pressure (T_{cp}O₂) in obese individuals (n = 14) at supine and sitting position. T_{cp}O₂ values were compared to those obtained in healthy, nonobese controls (n = 13). In obese subjects, absolute T_{cp}O₂ and mean T_{cp}O₂ were significantly lower (P < 0.05). Logstash substitution plugin is not working as desired In my logstash.conf file I have the following plugins definition: if [HTTP]{ stdin { codec => json } } stdin { codec => json codec => syslog filter => [0,"!^User-Agent: Logstash] path => /dev/stdout } I have also my own conf file with a route like this: worker -n 0 -l logstash-input And here is my output: { "error"=>"Invalid option passed", "message
