The Adobe Photoshop program costs about $100 to $100, though you can also purchase the Creative Suite program at a discounted price that includes Photoshop, Illustrator, Lightroom, InDesign, and several other programs. You can purchase the Adobe Creative Suite for $500, which includes Photoshop, Lightroom, InDesign, Illustrator, and Dreamweaver. ## Pixelmator Pixelmator is a vector-based application. It works on an image-editing program, much like Adobe Illustrator, and can create pixel-based images, but it can also import images, take advantage of the Clipboard feature, and even export graphics to other applications, such as Keynote, Microsoft Word, and QuarkXpress. In addition, Adobe Photoshop can export images as PDF files, which can then be opened in Adobe Acrobat. The program is free, but you must purchase the add-on upgrade for $19.95 to enable you to create 3D graphics. The app is available for

Mac, Windows, and Linux. ## SketchBook Pro SketchBook Pro is

Designer Lucca D'Anne has developed a quick and easy way to launch Photoshop from the web. The Photoshop Launch Player works with a variety of browsers and offers cross-browser, hardware agnostic support. These Photoshop alternatives work from your browser and allow you to use Adobe Photoshop to work on projects from home, while avoiding the need to download Photoshop to your computer. The process is simple. Just follow the steps below: 1. Install the Photoshop Launch Player Download the latest Photoshop Launch Player file from this GitHub repository and save it into your computer. When the download is complete, open your Downloads folder in Finder (Command + Shift + G). Select the Photoshop Launch Player file to install it. When it is finished, you can optionally select 'Always Allow' if you want to make sure the Launch Player can run apps such as Photoshop (in the case that you are not using Chrome or Safari). 2. Add the Launch Player to your bookmarks or favourites Select the Launch Player from your bookmarks or favourites list and go to the web page. To add it as a bookmark, in Safari press Command + D or

Command + B. To add it to your favourites, in Safari press Command + Shift + D or Command + Shift + B. When the page loads you should see the page title change to Adobe Photoshop Launch Player. You can also add this page to your home screen in Safari on your iOS device. Just click the downwards facing arrow in the top right, then scroll until you find the Launch Player. The Launch Player also works with Chrome bookmarks, but you need to add it to the bookmarks. To add it to Chrome bookmarks, select the Chrome menu and go to More Tools -> Add to bookmarks. To add it to the home screen, press the three vertical dots in the top right and click Bookmarks. You can then drag the Launch Player to your home screen. 3. Install the Autodesk SketchBook The Autodesk SketchBook is a responsive website designed to be used in a web browser with an easy drag and drop interface. SketchBook comes with pre-loaded templates for a variety of Adobe Photoshop designs, but you can use any design saved on your computer. To install SketchBook, extract the zip folder and drag the sketchbook.js file to your web root. In your favourite web browser 05a79cecff
