## Accu-chek Ir Software Software

Download

Webcams Select a country to view the Webcams for that country. Do you want to activate Infrared (IR) Technology? Activating Infrared Technology lets you see infrared radiation and understand more about the objects in the world. IR Technology The infrared technology may be familiar to many of you. It's the technology behind the "see through" sunglasses. While the concept is great, in reality the images that you see are not that good. The images that you see are only the surface reflections of the images. The Infrared DLP projector technology is based on an infrared laser scanning projection system. The IR diodes project the images on the walls, doors and other objects. Images on walls, doors, and other objects are invisible to the naked eye. Essential Infrared Technology DCP-IR and 5Lenses Controller Designed to deliver the highest quality IR pictures, this device features five High Contrast Lens that creates a bright clear image from the IR signal. They also come equipped with IR diodes to project the images on walls, doors, and other objects. Your current viewing environment can affect the performance of the DCP-IR and 5Lenses Controller. Please turn off your IR projector when viewing in bright light or viewing at night. Image Quality The infrared technology is not only designed to give you a good night vision. The DCP-IR and 5Lenses Controller offers you a great picture quality. It also comes equipped with five High Contrast Lens to project the images on walls, doors, and other objects. What's special about the DCP-IR and 5Lenses Controller? Built-In IR Sensor The DCP-IR and 5Lenses Controller feature built-in IR sensor that helps the device to automatically adjust the focus of the images on walls, doors, and other objects. Three Video Modes The DCP-IR and 5Lenses Controller offers 3 video modes to make the infrared projection system even more suitable for your viewing environment. 240-degree field-of-view 60-degree FOV for area video mode 40-degree FOV for room video mode 5-minute video update time Video mode specification The DCP-IR and 5Lenses Controller comes equipped with five High Contrast Lens to project the images on walls, doors, and
