There are just icons included in the pack but you can add other icons if needed. Icon Replacement If any icon is being in used in our icon collection, you can replace it with another icon of your choice. Just replace the provided icon with your own icon! If you upload any similar size icon, you can replace with that icon. License: This icon pack is free for personal and commercial use.RAF Stoney Cross RAF Stoney Cross was a Royal Air Force station located near Stoney Cross, Wycombe, Buckinghamshire, England. History RAF Stoney Cross was first established as No 2 Field Hospital in September 1940. It was renumbered as RAF Desford in November 1942. It opened as a control and communications centre for the Air Ministry. b7e8fdf5c8

In the X-MACs collection there are 19 icons, each icon in a separate category and with unique details. We used a wide variety of images that can be used to represent the different projects you can design and develop. Each one of these icons has its unique characteristics that will help you in your projects. We believe that, if you want to work well in the different tasks related to the graphic design, the best thing you can do is spend time on getting familiar with good images, well chosen for your projects. When you have good images in mind, you will notice that you will be much more productive and you will enjoy what you do a lot more. If you are thinking that X-MAC General Icons is a collection created for companies, this is not so. We are designers, who are tired of working in a small boxes. We got tired of designing icons and wanted to enjoy designing larger icons. In the past years we have been creating more applications and websites and we really enjoy it. We started to create a collection of icons like the X-MACs. X-MACs General Icons contains all the main icons that you may need and that you can use to represent you applications or websites in a realistic way. We've searched for authentic images on the web and we have made sure that we have selected the best ones for each icon. The icons are here to be used. Color: The graphic elements that you are going to find inside of them are the ones that we used for our own works. We made sure that you can choose the color you prefer. We deliver the icons in 8 colors with a nice and smooth gradient. You can choose what type of gradient you prefer to make your applications or websites the best in the field. Size: Each icon in the collection has been made in such a way that they can be used in different sizes, according to the application or website you want to design. We have made sure that each icon can be used in a wide variety of sizes from 8 up to 32 pixels. You can choose what size you want to use for each icon in your design. Quality: All the icons in the X-MACs collection have been designed by us in Photoshop and all the details and effects are made by us. We took a lot of time to design a realistic style for each icon. Our intention is to make you enjoy your work and not to spend your time in creating icons but to work
