With the launch of the first Personal Drone, DJI Osmo, on September 6, 2018, you can now capture video from your phone and stills from above. The Osmo is a pocket-sized action camera that can move and tilt like a video camera, yet capture beautiful images and videos by moving its optics above and below the surface. Strap it to your phone or hang it over your head, and with an image stabilization effect optimized for video, it can capture stills and video from a new perspective. With a 30-second video clip, you can capture every moment of your day from a unique perspective. The Osmo is equipped with an image sensor 1-inch CMOS with 40-megapixel resolution, built-in Wi-Fi, and a dedicated PC app that
