Indir full old 1.2gb.Q: Javascript onclick to open child-page in a new browser tab I'm having trouble trying to figure out how to open a child page in a new tab when the parent page is clicked. This is how I open the child page inside of the parent page: var target = "home.html"; window.open(target, '_blank'); I'd like to open the child-page on the same window but in a new tab. I'm not sure what I should be putting in for the target variable in the code above to do this. Thanks! A: You can use a target key/value pair in the URL for window.open. Try changing the target to: as per Docs: List of Neighborhoods in Austin This is a list of neighborhoods within the city limits of Austin, Texas. Austin's neighborhoods are defined by the Austin City Council (ACC) as segments of the City of Austin. Within each neighborhood, the ACC may implement zoning or other government actions, designate streets, and approve or deny
