Program your own video game, alone or with friends, in 3D virtual sandbox using blocks. Build a dream house, create a zombie outbreak, become a cop, a thief or a monster. This online game platform provides over 1,500 games to play, create, or share. It is also one of the most visited websites among children. Games The platform's open server architecture allows developers and players to easily create and publish custom content. Some of the most popular virtual worlds on Roblox are Hape World, Kingdom of Dressup, and Adventure Island. Roblox also supports text-based games with games like Roblox: The Movie. Roblox games can be accessed from a wide range of devices, both in online and offline modes. Most popular devices are computer, iPad, and smartphone. A tab on a device's browser is needed to access game files. A player may control a game through a mouse or touchscreen, or alternatively, through in-game controllers, such as PlayStation 4. The 'Power of the Dark Side' promotion was released on March 31, 2019 and has three daily bonuses. Players can obtain "Messiah", "Mandalorian" and " Sith" armor, as well as "Lucifer" weapon. These bonuses were distributed among all players of the Power of the Dark Side promotion. Features Roblox offers many features that can be used for programming, including the creation of buildings, models, sounds, and animations. Roblox's wide range of features allows users to create almost any kind of game, from games targeted for children, such as Jurassic Dream Island, to the creation of Player versus Player games such as Roblox PVP Arena. Players can create endless games with the ability to build and design things with the Roblox Creator. Most users create new games on their 'Sandbox', a walled-off portion of the game-playing area that can be used to create anything the player wishes. Each sandbox has its own AI community. Players are able to add players via the 'Room' feature, allowing up to 25 people to play the same game at the same time. Players can then communicate in the 'Messages' section to help coordinate with players. As of May 8, 2018, Roblox's mobile app uses a modified version of the Java programming language. Initially, Roblox used JavaScript, but found this slowed down the app's performance, and switched to Java
