For DDT2000_Light.exe, D3E Diagnostic Tool.exe, DDT2000-AsapServer.exe, DDT2000_Launcher.exe users the program has been added to the favourites list. After the installation is completed, the program will be found under the Start menu in the system tray. I downloaded the DDT2000_Light.exe with the installer. That program installed fine.

Then, I started the DDT2000_Light.exe and ran the MAF Test. It displays the results. Unfortunately, there are no results. It displays an icon for few seconds then disappears. I was getting results from the ELM327 but the software would not display the results. Then I uninstalled the program and reinstalled it. The software installed again and I ran the MAF Test again. I received results from the ELM327. I tested the MPG and it was 20.28. To test the OBD1 I plugged the OBD1L and the results were displayed. The program runs smoothly. I am a beginner and this is great for me. Thank you. I downloaded the DDT2000_Light.exe and the D3E Diagnostic tool. I uninstalled the
